SAY 'NO' TO A EURO - STATE. RESTORE BRITISH CONTROL

WHO RULES BRITANNIA?

THE PEOPLE of this country have a right to feel proud of being British - for Britain has a fine history and an honorable heritage. Our once proud nation has little future unless we fight to restore British control over British affairs. A look at who rules Britannia will show that Britain's freedom in all backgrounds has been surrendered. Only the National Front has the policies to make our country strong, free and independent again.

The National Front believes that there is a common cultural, historical and racial link between the nations of Europe, however within this broad framework there are many differences and each nation has developed into a distinct entity. We believe that each nation has an absolute right to govern its own affairs - this includes nations in both Western and Eastern Europe. Only when this absolute right is accepted can true friendship and respect develop between nations.

As a result of this we are totally opposed to any attempt to impose a 'European' authority over the rights of the British Parliament and people, or to enforce some sort of merger between the European nations into one 'Euro - Super- State'. Any such attempt will simply build a bureaucratic empire.

The European community started as a trading bloc concerned primarily with economic matters with the aim of unrestricted movement of goods, capital and people. The National Front has been for many years now consistently opposed to the EC and Britain's membership.

1. We are opposed to the formation of any such bloc because the formation of continental trading blocs effectively divides the world up into a small number of super - powers which will tend to exclude each other.
2. We are also against the formation of such blocs because they inevitably lead to standardisation of products and the merging of cultural identities.
3. In such a European bloc Britain is inevitably being relegated to an offshore, outlying, depressed region while industry is drawn to the central industrial areas of Germany, France and Northern Italy.

The National Front would withdraw Britain from the European Community and restore National sovereignty, we would re-build our industries employing British workers in British jobs selling British goods.

The European Community has spawned a monstrous bloated and self-important bureaucracy. These Euro-crats receive exorbitant salaries, expenses and perks but have little sense of responsibility (take the Kinnocks for example). Their bureaucracy does little good, but produces large amounts of reports and memoranda on all sorts of aspects of our lives, which would be better dealt with at a National or Local level and at a fraction of the cost.

A National Front government would cease to make any more financial contribution towards the cost of such a bureaucracy which we would like to see dismantled and which is costing Britain millions and millions of pounds each year.

We also believe that with the removal of any border restrictions it will be far to easy for terrorists, drug traffickers and illegal immigrants to operate. Already many of the drugs being sold on our streets are coming into Southern European countries, than into Britain, inevitably this will increase.

The same route is being used by terrorists, with the relatively easy availability of firearms in other countries this will be a welcome opportunity to the murderers of the IRA. The Channel Tunnel and the relaxation of custom controls will also encourage the smuggling of animals into this country increasing the danger of a rabies epidemic, two women were recently bitten by a bat,it's reported the bat has a rare form of rabies, which can kill.

FACT: By 1997 the British taxpayer's gross contribution to the EC will be 5.4p in the pound. Withdraw from the EC and cut tax.

FACT: The average British family's food bill cost about £1000 a year, due to the European Common Agricultural Policy.

FACT: Every man, women and child in the UK paid £415 to Brussels in 1993/4/5 and only got back £271, so our money was spent on the Spanish fishing fleet, helping them to steal our fish.

FACT: Less than half Britain's trade is with the EC and more than 75% of our overseas investment goes to countries outside the EC.

FACT: The British pound will be replaced by a single European currency called the EURO(or something just as stupid)by a Central bank in Germany.

FACT: The Union Bank of Switzerland has warned, Britain could be dragged into higher taxes and unemployment if it joins a single currency.

FACT: The, EC wants it's own police force with powers of arrest in Britain and the pratt Paddy Pantsdown has suggested we merge our armed force's to create a European Defence Force.

FACT: The National Front has been the only political party since we first joined the (EEC) EU to continually oppose our membership and demand our withdrawal.So don't be fooled by any other so called anti - EC parties because they are just jumping on the NF's bandwagon.

EDITORIAL No 3

Here we are again. The latest edition of The Flame, Britain's fastest selling Patriotic newspaper. Yes, that's a fact. As you can see for the first time in over 15 years, we have entered new areas where The Flame has been very well received. It is great to see Scotland and Ulster back in the NF sales league and doing nicely with Walsall, Merseyside and East Yorkshire coming along as well. Why is this? Why an upsurge all of a sudden, The answer is simple.. Hard work and dedication by NF Organsers and activists up and down the country, Pushing the sensible policies of the National Front through our literature like The Flame, but not deserting or toning down any of our policies..The National Front has stood alone on many issues for nearly 30 years especially on the corrupt and treacherous way this great Country of ours is being sold down the river regarding Immigration and Europe. We will continue to do this for Britain and the British people.

Will the Labour left wing on Manchester City Council be allowing the IRA to march through their streets like they did last year, for a fee of only £71 the uniformed scum who have murdered and maimed thousands of British people marched through the centre of Manchester? Lets hope the voter's remember this when it comes to the elections, every time they see a picture of the devastation to their city centre, they should remember it was their Labour controlled council what allowed the vermin into Manchester City centre. We hope the police are looking very closely at those councilor's who gave permission for the march, it's not unheard of, people who are sympathetic providing storage space or safe houses, is it.
The National Front believes the people of Manchester were betrayed by traitors, in the olden days those traitors would have been hang draw and quartered, who's for bringing the olden days back ?

MEMBERS & SUPPORTERS OF
THE NATIONAL FRONT,
SEND THEIR SYMPATHY TO THE
FAMILIES OF THE DUNBLANE MASSACRE,
OUR THOUGHTS WERE
WITH YOU AT YOUR RECENT MEMORIAL SERVICE.
GOD BLESS.

HOW BRITAIN'S MISFORTUNES CAN BE REVERSED.

Throughout time there have existed many men of learning who have voiced the opinion that there is nothing new under the sun.
If we review history, particularly that relating to the development of most societies and nations we find that this statement is true.
Many societies have risen to occupy a prominent position in the affairs of the World only to deteriorate into a nonentity. In all bygone dynasties and empires the actual moment of their deterioration can be identified with considerable accuracy. The change in the fortunes of Great Britain can be pinpointed to a period in the nineteen fifties when the nature of its population changed dramatically.
Until then the British people had developed into a civilised and well balanced society. A caring society always prepared to assist and give practical help to other nations when the need arose.
Upon the happening of any kind of catastrophe, irrespective of where it occurred, whether earthquake, hurricane or internal strife the British people were ready to respond. Quick to supply the necessary assistance whether material or monetary.
Within their own country the British people had always had a tradition of responding to any charity but suddenly with the change in the nature of its population the whole picture has changed.
Since the fifties thousand upon thousands of immigrants have poured into Britain making their homes in many of the industrial areas of its towns and cities. This has had a dramatic effect on the environment, creating vast areas of neglect and decay.
In so many of the districts in which these people have chosen to live the law of the jungle prevails making them devoid of the law and order which the British once took for granted. One of the direct results was that many of the former inhabitants hastily moved to areas not yet affected by this blight.
Unfortunately this movement had a chain effect because many found that within a short space of time the same situation arose precipitating a further move. It has finally reached a position where only a few isolated areas remain unscathed by the problem. Although the violence which has increased a hundred fold has spread to almost every part of Great Britain. Prior to this drastic change in the nature of the inhabitants the indigenous British people had possessed a fierce independent nature, but suddenly finding within their midst a parasitically strain ever-ready to prey on their generosity many of them became contaminated with the 'laissez faire' attitude. For they too looked for ways of sharing the largesse being offered by the Welfare State at their own expense.
Apart from the obvious change in the economic situation many changes in the laws of the country were implemented to accommodate the wishes and the desires of the newcomers.
These laws had the effect of dividing the population into two separate societies. For it has meant that these changes, principally for the benefit of the newcomers has placed a heavy burden on the indigenous people.
Not only have these changes had the effect of curtailing free speech, which the majority of British people had always regarded as their birthright, it raised the newcomers into a position of privilege, almost idolatry.
This has placed the indigenous people in an invidious position because they now find that they are obliged to favor these dusky intruders to the exclusion of their own kith and kin. Fortunately for the politicians who have actively encouraged this position, partly to destroy the position of strength which the Trade Unions once enjoyed but also to appease the feeling of conscience created by their forebears actions, the British people, lacking in spirit, have allowed themselves to become brainwashed into accepting this diabolical situation.
Wherever these conniving politicians have interfered we find areas of desolation and extreme violence. Is this the ultimate so far as Britain is concerned?
If we consider the previous machinations of our politicians in areas such as Palestine, the Indian continent, Uganda, Rhodesia and South Africa. The list is endless. Most of this violence can in some way be attributed to the British politician. Britain is not far off. Many have mentally committed the Anglo-Celtic race to extinction.
What is the answer, you ask? Many feel that a massive humane repatriation scheme will restore the balance. But in reality, to satisfy the apparent queasiness of the establishment who usually have the last word, what is required is a phased programme of repatriation to the countries of origin. Obviously some inducement must be made and the only viable scheme to benefit all is to create large industrial areas in their home countries.
What is envisaged is the establishment of Co-operative industrial communities on the lines of that created in the Mandragon area of Spain? It incorporates its own education system, it has its own hospitals, banks, training centres and utilities, in fact it possesses every facility to make it self-sufficient. The originator of this scheme was a local priest. Surely this is a good omen in itself.
To finance these schemes the money normally paid to the corrupt governments in the Third World countries could be channeled into this venture.
Many of the immigrants are familiar with British commercial and industrial methods. They have in their ranks the trained engineers, teachers, medical staff and all the artisans necessary for its foundation.
These would be essential to form the nucleus of the working force necessary to implement the beginning of these cooperatives. There would remain one problem and that is the many thousands of children of mixed blood resulting from the many ill-conceived relationships who are now languishing, unwanted, in dozens of homes in Britain. Obviously similar institutions would have to be set up within these Co-operatives so that the burden be shared. Action is required now before Britain becomes another Yugoslavia

LOYAL TO THE QUEEN - BUT IS SHE LOYAL TO US ?

Tuesday 9th July was a black day indeed for our Country.
While loyal Ulstermen and women were being denied their legitimate right to march along a route they have been taking in a part of the UK for nearly 190 years, they had all the forces of the state blocking their way, the establishment of that very same state were falling over themselves to give a grovelling welcome to a convicted African terrorist.
When South African President, Nelson Mandela recently arrived in Britain no amount of pomp, pageantry and general fawning was spared for the great one. The little matter of why Mandela was actually put in prison was put to one side as royalty and the prime minister gave Mandela the benefits of a full state visit, with a full royal gun salute.

Mandela was actually sent to prison by the then white South African authorities in the early 1960s, after he was found to be involved in a bombing attempt of a major railway station in S. A., which if it had not been found could easily have killed hundreds of people, black and white. As leader of the terrorist ANC scum he was sent to prison, but generously the S. A. authorities went to him time and time again and told him he would be released straight away if he would renounce violence. In nearly 30 years of imprisonment he never once renounced terrorism.

While all this was taking place another black man was doing some terrorising of his own. Horrett Campbell though set his evil sights a little lower than Mandela. He decided to break in to a nursery school and take on some three year olds, with a machete.
This happened in Wolverhampton, a city that the great Enoch Powell used to represent some years ago. Powell, a man amongst mice foretold our current racial problems nearly thirty years ago. Pointing out that immigrants arriving then would be providing the stock for future generations. How true his words were.
Campbell, 32 is the product of Jamaican immigrants who came to this country in the 60s. He left school at 16 and has never done a days work in his life, his sole contribution to Britain has been zero. What's equally worrying is the make-up of the school where the attack took place, hardly a white child to be seen but plenty of black, Pakistanis and depressingly, half-castes?
Our Country, our people, our whole way of life is being re-shaped to suit the will of the multi-racialists. If we carry on like this the white race will sink into the abyss, don't wait for your MP's to do anything, they are part of the problem.
The *National Front* is the <u>ONLY</u> chance you have left to save your Country and the White race, remember large parts of our land has already been taken over by coloured invaders, don't think its not going to happen where you live, because the race mixers are targeting your area <u>NOW!</u>

SAME OLD "NEW" LABOUR

The Labour party's foreign affairs spokesman Robin Cook spoke recently of his party's determination to let in more immigrants from Hong Kong. On a visit to the colony he pledged that Hong Kong's own ethnic minorities, about 3-5000 Indians and Pakistanis would be allowed to settle in Britain when the colony is handed over to red China next year.

The creep Cook is dreadfully concerned about Hong Kong's non-Chinese population becoming stateless. So concerned he said: "I give the commitment that Labour will remove the need for special circumstances to arise before those members of the ethnic minorities gain admission and right of abode."

What the hell is this Country doing committing itself to take up to 5000 more Indians and Pakistanis. If China doesn't want their fellow Asians because they are the wrong colour and they thereby become stateless and feel "under pressure" to leave then one may well get the feeling that those Indians and Pakistanis should do so and go home to India and Pakistan, not to be allowed to come to the other side of the world to Britain to turn up at the nearest council's doorstep saying they are homeless and being dumped on the rest of us.

Then again this will never worry the likes of Robin cook, because the immigrants will never be moved into his street.

CAUGHT ON DE CAMERA!

A Nigerian "illegal" immigrant who had been evading deportation for five years was recently jailed for a year after stealing more than £2,500 from Marks & Spencer's Kensington store in London, where she worked.

Mother of five Georgina Adetoro Aiyenura managed to get her job with M&S by taking on the identity of her cousin Yemi Pratt (very apt).

In fact Aiyenure used a staggering 21 different names in Britain, had 7 different addresses(& different council flats)? and 6 different NHS numbers!

Southwark Crown Court also heard how she had been the wife of a Nigerian chief, enjoying a leisured lifestyle, but after he died she suffered financial problems, presumably she then looked around for someone or something to enable her to regain her comfortable lifestyle and obviously the word "Britain" came into her mind and she took up illegal residence here in 1990.

Unfortunately for Aiyenura her own greed was to be her downfall. She was caught by in-store security cameras concealing £50 notes in a till compartment before helping herself near the end of her shift.

ON THE NATIONAL FRONT.....

The past couple of months have seen a dramatic increase in National Front activities throughout the Country.

NORFOLK: For the first time in many years Branch meetings are taking place in Norwich, as well as Great Yarmouth. This Branch has the highest rate of membership renewals throughout the Country and continues to buy ever increasing amounts of literature. The picture below shows the top table of the recent Norwich meeting, between them Tom Holmes, Bill Fitt and John McAuley have clocked 78 years of loyal service to the National Front. The party couldn't be in safer or better hands.

At the beginning of May the National Front fielded two candidates in the Council elections in the WEST MIDLANDS. In the Brownhills ward of Walsall Council, Alan Humphries polled an excellent 107 votes (4.2%) for the NF. The party is going from strength to strength in this area, a new committee has been elected and a new P.O. Box address has been opened.

NF Directorate member John Lord stood for the party in Princes End ward, Sandwell Council and polled a credible 56 votes (3.5%). Despite being retired John Lord is the chairman of Dudley & Wolverhampton NF and spends most of his time promoting the party in his area.

At their recent branch meetings there has been some film shows of past NF activities and this has help boost attendance's. Between the local branches they hope to contest three seats at the General election.

There was nearly forty people present at a recent meeting of SOUTH LONDON NF. Over £50 of literature was sold on the night and the collection raised some more much needed funds for their general election plans. Over in WEST LONDON activities continue to take place in Hounslow and Ealing, they are on course to field one candidate at the General election.

Sale's of '*The Flame*' newspaper have increased all over the Country and special mention must go to our friends in Glasgow for their support.

Generally the National Front is growing daily as increasingly people are waking up to the nightmare of living in Britain in 1996. Only the National Front has the solutions to our nations problems and to make us a proud nation again. If you have liked what you have read and agree with us, then join and support us. The National Front is your only hope.

MUGGERS IN THIS AREA

A woman tourist visiting our capital city was recently mugged after only spending a few minutes in the streets of New Cross, SE. London. Norwegian Helene Hagen-Larsen from Oslo was travelling to the relatively safe area of Blackheath, from Central London,when her train was diverted to New Cross.British Rail promised alternative transportation would be provided, but when none arrived passengers were told to make their own way home. Being a guest in our Country Helene was not familiar with the area of New Cross and being from a Country that is not known for its large West Indian population she was also not familiar with the culture. She stepped out of the station and before you could say "Paul Condon" someone (or something) ran up from behind her and snatched her handbag. God only knows what impression of Britain she will go home to Norway with.

If only British Rail had taken the lead of the National Front, one of our current range of stickers declares: Danger Muggers in this Area. BR staff should have warned Miss Hagen-Larson about the dangers,or better still, a large sign in the station waring of muggings in the area then this incident may not have happened.

If British Rail or anybody else is not up to the job of serving the public then the National Front is. We shall continue to warn the public about "Muggers", in places such as New Cross, you never know it might just save someone from being mugged.

BRIGITTE BARDOT

The former 1960s sex star Brigitte Bardot has threatened to emigrate because she says 'France has too many Muslim immigrants'. The animal rights campaigner wrote a hard-hitting attack on immigrants in her newspaper column Le Figaro. B. B. Said 'she will go into exile unless the authorities acted on her grievances'. Her husband is a staunch supporter of the National Front in France.

LETTERS TO THE EDITOR

DEAR FLAME

To: P.O.Box 274, Hemel Hempstead, Herts,HP2 5JW

DUNBLANE NEVER AGAIN!

As one of the few political parties which is not influenced by a political lobby it is essential that we endeavor to break the culture that allowed the dreadful and appalling act of violence to occur at Dunblane.

Is it not strange that the three main political parties refuse to acknowledge or even discuss the true reason why such a disaster was allowed to happen.

Immediately after the unspeakable slaughter took place the only suggestions made by politicians were increased security at schools and the introduction of further gun laws. The true reason was totally ignored.

We must highlight the causes and acquire the support of the electorate to curtail the influence of those in Parliament who have created this situation.

Despite the unspeakable happening politicians are still pledged to pursue the unnatural rights of homosexuals.

A few days after Dunblane Paddy Pantsdown is reported as having reaffirmed his party's commitment to ending discrimination against homosexuals.

He bases his views on homosexuality on the merits of one particular Marine with whom he served. Unfortunately, for every one of his ilk there are dozens engaged in trying to poison the minds of young people by their filthy literature. The writer has personal knowledge of a wide number of homosexuals and indeed lesbians who have interfered with children in their charge whilst acting as House-Parents in Children's homes. In nearly every case the information of the happenings was covered up by those in charge.

Mr. A.A
Bexleyheath.

SIR:

In the past, West Midlands, NF have held 5 a side football championships for the Tom Whitehall Trophy. Tom was the organiser of the Wolverhampton branch, who sadly passed away a few years ago, but we play this competition in his memory. Much needed funds have been raised by this sporting occasion through raffles, barbecues and sales tables. On the evening we hold a darts competition for the Ray Redfern memorial trophy. Ray was a stalwart chairman of Birmingham branch. We are hoping to reactivate the 5 a side soccer tournament and would be grateful if NF branches interested in participating would contact us. The occasion will be held in the W.Midlands and has a family atmosphere. There will be proper pitches, goal posts and referees. It is a good chance for NF members from all over the country to get together. During the soccer season NF members from A.Villa,Birmingham,Chelsea,Leeds,Millwall, Rangers(Glasgow), Watford and many more, have been able to meet up with each other socially on match days. Branch meeting can be arranged on these dates to boost attendance. NF members are among the top football supporters in the land, long may it continue. We are considering forming a National Front Football Supporters Association. If you are interested please contact us.

John Lord
NF Dudley & Wolverhampton
Branch Chairman.

SIR:

What a sick society Britain has become, OAP's are frequently mugged on the streets or attacked in their own homes. Houses are broken into and burgled, cars are stolen. Vandalism is the plague of our towns and cities, drug taking and prostitution are epidemic, Children run wild in our schools, Authority is undermined, mob rule predominates inner cities, Liberalism has become loathed by the mass of decent hardworking folk. The courts are lenient on the criminals and show no sympathy for the victims of our wicked society, Politeness has gone out the window, rudeness prevails. Very rarely do you see a youngster offer his/her seat to an OAP or invalid on a bus or a train, very rarely do people open doors for you, you usually get them slammed in your face! Very rarely do people say "Please" or "Thank You". Discipline has gone, who's to blame? The government, the local council, teachers, do-gooders and parents."Spare the rod - spoil the child". Its an old adage, but it's so true. If the cane was restored in all schools there would be less crime. If the rope was re-introduced for murderers, there would be less murder's and less murderers. It's time to get tough, the people want action now, the National Front has got to get the message across to the British public. We know they support our tough stance on crime, let's all get out there and work our guts out for the party we love.

The National Front 29 years not out.

Norman Tomkinson
NF Birmingham Branch
Organiser

NF IN SUCCESSFUL VISIT TO ULSTER

After a break of two years National Front members and supporters from Birmingham, Luton, Kent and South London made their way to Ulster for this year's 12th July Orange parade's, taking plenty of papers (The Flame) and stickers with them (Hang IRA Scum and Stand by Loyal Ulster).

Accommodation was provided by local loyalists in East Belfast which was very much appreciated.

We arrived on the night of the 11th and barely had time to unpack before being whisked away to the celebrations that were taking place. At midnight one of the traditional bonfires was lit and we enjoyed the hospitality while listing to loyalist tunes that rang out until the early hours of the morning.

On the morning of the 12th we made our way to the City Centre where thousands upon thousands of people lined the streets to give their bands and lodges a rousing send off. We made our way back to East Belfast in the afternoon where we joined the local people who were waiting to welcome their bands back,in the evening of the 12th, we attend a social, and very pleasant night was had by all.

On the morning of the 13th we got up early so we could go and see the murals and like all good tourist take plenty of pictures and spend lots of money, which one or two certenly did.

During the time we spent in Ulster, and for some of us, it was the first time we had been, you couldn't help feeling a sense of admiration for the people of Ulster, they have to put up with the daily threat from the IRA, yet they still stand firm in their loyalty to Britain.

Before we left we were told "that it was good to see the NF again and we will always be welcome in Ulster", we was also told "they new the National Front was the only political party that stood up for the loyalist people of Ulster on the main land".

The support for the National Front was so encouraging that we are optimistic of reactivating our Northern Ireland branch very shortly, who knows we could even have a candidate in the General Election.

MAD COW DISEASE

It is impossible to know how serious the problem of Mad Cow Disease will become. We cannot fairly apportion blame because the effect of using unsuitable foodstuff could not have been foreseen.

However it is a symptom of the terrible changes that began in the mid-60's and early 70's. Traditional small farmers, who had for centuries produced all of our meat and vegetables, suddenly had to contend with the newly arrived spiv factory farmers.

With no understanding of the animals or the environment, hedgerows were torn out to create enormous fields. Without the birds and insects who kept the pests in control, more insecticides had to be used. Chickens and pigs were put into overcrowded conditions where they were fed by machinery at regular intervals.

With animal food costs rising, the small farmers who still produced 85% of our food were being systematically forced out of business. Fred Peart who was Minister of Agriculture at the time wrote in the farmers journal saying that, because the new factory farmers were more efficient, they should be encouraged to take over and that the small farmer should give up. Fred Peart was to agriculture what Dr Beeching was to the railways.

The whole problem was the arrival of an alien spiv mentality, new ideas that had neither the Christian nor pagan concern and reverence for nature, just a new ideology based on greed and profit. It was the practice of including unnatural meat waste (brains, spleen, spinal cord, etc.) in the feed of naturally vegetarian cattle for the sole purpose of achieving a more rapid increase in growth and saving money on the cost of feed that has led to this.

Supermarkets now supply most of the meat we eat. They also have control over the farmers who supply them. Decisions on types of food used are often imposed by the giant retailers along with guides for husbandry and the prices that the supermarkets will pay. This is a clear case of profit before morality.

GENERAL ELECTION FUND

With the General Election only 6 months away, the party urgently needs to raise funds for its General Election Campaign, the more money we can raise the more candidates we can stand.

Please make your Cheques/Postal Orders payable to: ***THE NATIONAL FRONT*** and send to: The Secretary, 'General Election Fund' P.O. Box 274, Hemel Hempstead, Herts, HP2 5JW.

NATIONAL FRONT CONFERENCE OCTOBER 1996

The Annual Conference will be held on Saturday 19th October, so book your place NOW! For security reasons the location will not be given out, the only way you can attend is if you are a member or able to accompany a member to the re - location point one member - one guest. Contact your local branch organiser or telephone our contact line for details on *01-442-249-552.* Clearance only by H.Q. Will admit you.

REMEMBRANCE SUNDAY NOVEMBER 1996

The National Fronts Annual Remembrance day Parade/Service to the Cenotaph in London will be going ahead as normal this year, we ask all Patriots to support this moving non - political event.
More details will be given out in the next members bulletin or phone head office: 01-442-249-552.

CHRISTMAS DINNER DECEMBER 1996

We will be a holding a Christmas social in London this year. This is open to all members, supporters and their guests. We advised you to book early as we have a limited number of spaces.
